

Impure Blood

When the blood is pure and the bowels are regular, there need be but little fear of sickness. Keep two grand medicines in the house; and use them when you first begin to feel poorly. Recovery will be prompt, and serious sickness prevented.

Mr. Fred Pierce, who resides at South Terrace, Adelaide, So. Australia, sends this letter with his photograph.

"For some years I have been a boundary rider on some of the far northern sheep and cattle stations. I had severe attacks of indigestion, and my blood would often get very impure. My skin would be covered with blotches, and my general health greatly affected. Whenever these attacks would come I would procure Ayer's Sarsaparilla, and Ayer's Pills. I always found that the Sarsaparilla would quickly purify my blood and strengthen my digestion; while the pills would correct my constipation and biliousness."

AYER'S Sarsaparilla

There are many imitation Sarsaparillas. Be sure you get "Ayer's."

SENATE AIMS BLOW TO RUIN KAPIOLANI PARK

Items for Payroll and Maintenance Stricken Out—Henry E. Cooper Sees Loss Ahead if Policy is Pursued.

Kapiolani Park is threatened with neglect and destruction if the policy of the Senate in striking out the items for maintenance thereof is sustained.

The Senate has already taken this action, but when the conference committee meets and the items are touched upon, advocates of the present progressive park system will appear to present arguments against the course outlined by the Senate.

Henry E. Cooper, one of the park commissioners, is stirred up over the proposal, for should the Senate refuse to appropriate moneys for the maintenance of the park, he sees nothing but a beautiful pleasure-ground allowed to go to ruin.

"There is an item for pay-rolls for, I think, \$20,000," said Mr. Cooper yesterday afternoon. "There is also an item in the current expense bill for maintenance. Both of these items have been stricken out. One reason given is that the park will be managed and cared for by the county, and another reason given is that it is impossible to provide revenue for the park, and maintain other important works.

"My contention is that the park system cannot be taken over by the county, and therefore the items should pass as outlined.

"Our claim is that without these funds all the work done in beautifying the park will be very seriously injured, to say nothing of the inability to progress with the improvement plans.

"We claim that the park is important from at least two standpoints. First is should be a matter of pride locally, and secondly, as a matter of interest to people who come here. It is one of the attractive features of the city, and very generally and favorably commented on by tourists. The park adds tone to the city, especially if it is kept in fine condition.

"The financial end of the park system has been managed with scrupulous care. To leave the park without funds will be to make all past expenditures a loss.

"When the condition of the park three years ago is compared with its condition today, it is easily seen what an improvement has been made. What was formerly a sand waste has been turfed and it compares favorably with the well kept parks on the mainland. The items as placed in the bill are only half of what is estimated for a rapid improvement of the park. The amount finally agreed upon is a barely living rate to keep up what has already been done there."

HOW PROMOTION WORK IS UNDONE

One still has to go away from home to get the news. Following is a local cablegram, headlines and all, that appears in the Cleveland, Ohio, Press of May 8:

PEOPLE OF HAWAII IN GREAT DANGER

Burning Lava in Great Crater of Kilauea Is Rising—Explosive Eruption Would Do Immense Damage.

By Scripps-McRae Press Ass'n.

Honolulu, May 8.—The three-mile long crater of Kilauea, a constantly agitated lake of liquid lava, is showing great activity and fears are felt that the enormous mass may be thrown into the air by an explosion and overwhelm a part of the Island of Hawaii and its 25,000 inhabitants.

The burning lava in the great crater, the largest in the world, is steadily rising. Should the pressure increase there is great danger of a terrific eruption.

Kilauea is the child of Mauna Loa, but has far outgrown its parent in size, although not in the constancy of flow. It is 16 miles from Mauna Loa and 15 miles nearer the town of Hilo, whose inhabitants have several times been thrown into a state of terror by the lava flow from Mauna Loa.

On account of the relative smaller height of Kilauea an eruption from it might not reach the north coast, but it is feared Mauna Loa, which is 7000 feet higher and in the center of the island, would be exploded by the eruption of the other and cover the whole island.

Hilo is considered safe from a mere overflow of Kilauea and it is only an explosive eruption that is feared. The overflows from Kilauea usually go down the south and west slopes and away from Hilo.

In any event, it is likely that the activity now begun will leave its mark on the topography of the island. In one of its overflows one hundred years ago, Kilauea gave forth 15,000,000,000 cubic feet of rock and lava, changing the formation of the coast line for miles.

CLAUS SPRECKELS GOES BACK TO COAST

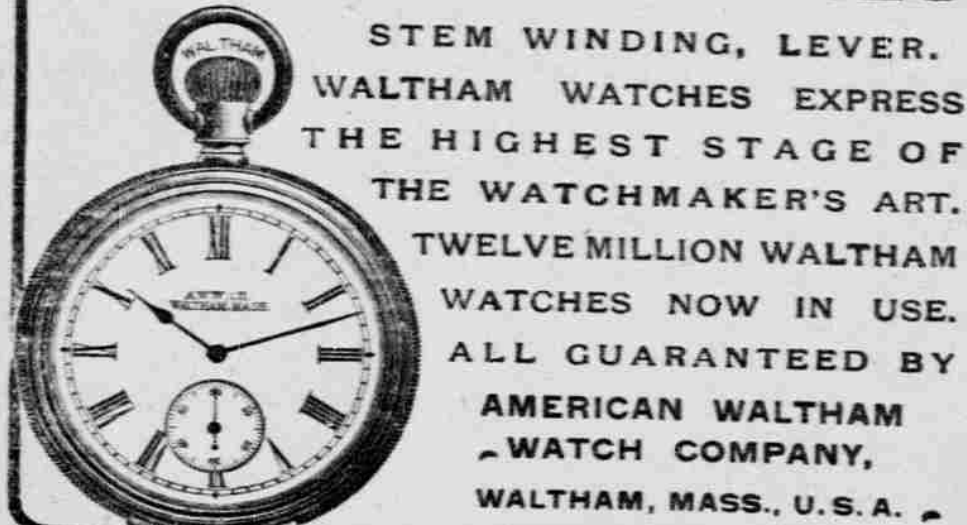

"I have enjoyed my visit to Honolulu and am in good health, barring a cold, which I contracted and which has clung to me," said Millionaire Claus Spreckels, a few minutes before the Sonoma sailed for San Francisco. Mr. Spreckels sat on a bench on the upper deck of the steamship, surrounded by many friends and enjoying the sight of the lei-bedecked crowds as much as any one.

Mr. Spreckels departed for San Francisco after a stay in Honolulu of several weeks. It was his first visit here in many years, or since the time

of the overthrow of the monarchy. During his stay in Honolulu he was the guest of Mr. W. G. Irwin at the latter's palatial home at Waikiki beach.

The largest goat ranch in the world is owned by Charles S. Onderdonk, of Lamy, N. M. He has 20,000 goats and they have 28,000 acres in which to roam.

Perfect Sleep

Points to the Cause

How many women are troubled with insomnia! How few, alas, habitually sleep the night through and rise refreshed.

If you can't sleep it is because your nerves will not let your body rest. Women's nervous troubles come from female diseases. Their delicate organism is a network of intricate nerves. No woman can suffer from female irregularities without eventually ruining her nervous system. Get rid of female disease and the perfect sleep of childhood will return.

Lydia E. Pinkham's Vegetable Compound

cures all female troubles and restores nerve equilibrium and brings sound, restful, healthful, natural sleep. Thus does this wonderful remedy operate to bring health to suffering women.

Wakefulness and Nervousness Cured

Dear Mrs. Pinkham:—Last spring, I lost my appetite, had headaches, and bearing down pains with cramps so that I was in perfect misery. I became wakeful and extremely nervous.

I decided to try Lydia E. Pinkham's Vegetable Compound, and am pleased to state that I derived immediate benefit and soon enjoyed permanent relief.

Within eight weeks I was restored to normal health and felt refreshed and strengthened as though I had enjoyed a lengthy vacation.

Since that time I have recommended your Compound to a number of my lady friends suffering with female irregularities, and those who have used it report great benefit from its use.

965 College Ave., Appleton, Wis.
Vice-President Social Economic Club.

Lydia E. Pinkham's Vegetable Compound has cured more women of female diseases than any other medicine in the world. Mrs. Pinkham advises sick women free. She will write you a personal letter if you tell her about your case.

Address Mrs. Pinkham, Lynn, Mass.

Lydia E. Pinkham's Vegetable Compound Cures Where Others Fail
